

AgriShift® lighting systems “shift” spectrum and intensity, meeting the individual needs of your animals<sup>1</sup>.

A **Built For Your Barn®** design uses materials that withstand harsh barn environments for years to come.

## Animal-Centric Lighting Systems

Made for any AgriShift® ML lighting fixture, the AgriShift® STC is a stringer designed to connect on the AgriShift® STA, adaptors offering various drop cord lengths, allowing for easy and cost efficient installation.

Attaching to the ceiling of barns up to 152 meters long, the AgriShift® STC comes in 25 or 30½ meter lengths, with 2.43 or 3 meter sections. It gives producers the opportunity to provide a species-specific light spectrum for their animals, while the durable, Built For Your Barn®, design guarantees it will withstand harsh barn environments for years to come.
